QUALITY POLICY

TTA "every day makes a strong effort to contribute to our customer's success and achieve their satisfaction" and this is a fundamental principle and commitment to clients of the company as well as its executives philosophy.

In order to achieve the above principle, the Leading team of TTA:

- ◆ Has adopted a Quality Management System that complies with the International Standard ISO 9001:2015, which applies to all Company's activities.
- ◆ Constantly reviews and improves the way DESIGN carried out and the provision of related services, where possible, as well as the effectiveness of its processes and consequently of the QMS.
- ◆ Strictly adheres to the Regulations, Specifications and Codes and Science.
- ◆ Monitors, evaluates and accesses critical parameters and processes to ensure quality.
- ◆ Ensure the availability of appropriate resources (human resources + equipment) for its smooth, efficient and effective operation.
- ◆ Constantly looking for opportunities to apply our continuous improvement approach to deliver competitive advantage. Invests into continuous training and education of all members of the team company in order to promote excellent quality in all company's activities.

TTA's approach to quality is holistic and the effort to achieve it is continuous and painstaking. Quality is not limited only to the main work product (Structural Design) but also extends to all activities, processes and procedures that aim to meet customer expectations.

Adopting the principle of continuous improvement, TTA has cultivated in its executives a corporate culture, recognizes and rewards personal effort and teamwork, invests in people and respects the customer.
